SUMMARY

Full-Stack Developer with 4+ years of experience building responsive frontends with React and Next.js, and RESTful backend APIs with Node.js, Express, and PostgreSQL.

WORK EXPERIENCE

Web Developer, WopeDigital (Remote)

Sept. 2024 - Present

- Developed and maintained WordPress websites for business, e-commerce, membership, and booking clients, with custom PHP to extend theme and plugin functionality.
- Built custom WordPress plugins and themes for 5+ clients across Ghana and the US to match clients' specific branding and design.

Freelance Web Developer (Freelance)

Aug. 2023 - Sept. 2024

- Designed and developed 4+ websites for SMEs in Kumasi using WordPress, Elementor, and custom PHP, including e-commerce and business landing pages.

Freelance Technical Writer, FreeCodeCamp & ContentLab (Remote)

Sept. 2021 - Jul 2023

- Produced 6+ articles on programming and software development for freeCodeCamp and ContentLab, applying SEO best practices to improve content visibility.

PROJECTS

Library API - Node.js, Express, PostgreSQL, Prisma, JWT Auth (github.com/dboatengg/school-api)

- Built a RESTful API with role-based auth, relational data modeling, and centralized error handling. Deployed on Railway.

DownNote - Next.js, PostgreSQL, Prisma, Auth.js (github.com/dboatengg/downnote)

- Built a full-stack markdown editor with real-time preview, cloud sync, and a guest mode that allows users to start writing instantly without an account.

TECHNICAL SKILLS

- **Languages:** HTML, CSS, JavaScript, TypeScript, PHP
